PCM XIITH
Percentage: 78.4%%

April 2017 - April 2018
Sec 61 Noida, Uttar Pradesh

EXPERIENCE

WEBKUL SOFTWARE PVT. LTD. | ASSOCIATE SOFTWARE ENGINEER H-28, Sector 63, Noida | feb 2023 – present

In my role at Webkul Software Pvt. Ltd., I honed my skills with modern technologies, such as Angular, Nodejs, and Symfony, while making the following contributions:

- > Angular Expertise: I led the development of responsive and user-friendly front-end applications.
- > Nodejs Backend: I contributed to server-side applications and RESTful APIs, optimizing performance.
- > Symfony Framework: I utilized Symfony for robust back-end functionality and efficient code.
- > Continuous Learning: Keeping abreast of industry trends and emerging tech was integral.

My role at Webkul was a fusion of technical proficiency and effective teamwork.

SKILLS

PROGRAMMING LANGUAGES	C++, Javascript, Typescript, PHP, HTML, CSS
LIBRARIES/Frameworks	Nodejs, Express, Angular, Reactjs, Socketio, Redis, Symfony, Bootstrap
TOOLS / PLATFORMS	Determined, Resolved, Dedicated, Strong-Willed, Innovative
DATABASES	MongoDb, Mysql

PROJECTS / OPEN-SOURCE

JUDGEMENT - A REAL-TIME GAMING EXPERIENCE | [LINK](#) Javascript, Typescript, Nodejs, Express, Mongoddb, React, Socket, Redis

Experience the fusion of cutting-edge technologies in JUDGEMENT, a dynamic project that brings together JavaScript, TypeScript, Nodejs, Express, MongoDB, React, Socket.io, and Redis.js. JUDGEMENT is not just a game; it's an immersive Call Break card game with a twist real-time user interaction.

Key Highlights:

- > Real-Time Thrills: With Socket.io, JUDGEMENT offers real-time gaming, allowing users to interact and converse during play, making it engaging and social.
- > Database Expertise: MongoDB and Redis.js are harnessed for efficient data storage and synchronization, ensuring seamless gameplay.
- > Multiplayer Excitement: JUDGEMENT supports multiple players, enabling real-time connections, interaction, and competition.

TASK MANAGER | [LINK](#)

Angular, Typescript

Explore Task Manager, an Angular application that combines essential web development principles to revolutionize task management. This project highlights my proficiency in services, Json databases, dynamic routing, and seamless data transfer between components

Key Highlights:

- > Json Database: Swift and responsive task handling with a Json database.
- > Dynamic Routing: User-friendly navigation for a seamless experience.
- > Data Flow Expertise: Flawless data exchange between parent and child components.
